DELIVERY

Free Delivery in the lower 48 states, international sales will help arrange delivery. There will be \$100 cash for each bull loaded sale day.

SIGHT UNSEEN GUARANTEE

If you are unable to attend the sale, we will gladly visit with you to discuss your sire requirements and together select bulls that meet your needs. If you are not satisfied upon delivery, you don't own the bull.

EPD'S

EPD's listed in the catalog are the most current bolt EPD's per breed association. All bulls have been genomically tested.

TERMS + CONDITIONS

Cattle will sell under the standard terms + conditions of their respective breed association. J6 Farms is retaining in herd semen use on all bulls at buyer's convenience and our expense unless otherwise noted or announced sale day.

Welcome to the 2022 Annual Bull and Female Sale. We are extremely proud to bring you our most powerful set of bulls yet. We had a harder time than ever before cutting down our numbers to ensure that we are only bringing you the highest quality bulls our program has to offer.

Since 2018, we have been rebuilding our cattle operation, prioritizing power, production, and profitability. Our focus on Red Angus, Angus, and Lim-Flex cattle has allowed us the flexibility to ensure that we are bringing the diversity from each breed to our customers. We want bulls with performance, power, longevity, and reproductive potential. We have both calving ease heifer bulls and performance-oriented bulls, as well as a select number of bulls that are a combination of both.

We're excited to say this year that the average scrotal measurement on the set is 38 cm. On another high note, we had an adjusted average yearling weight of 1,313 pounds across the 75 bulls on this sale. These bulls were weaned the last week of September after two weeks of creep feed and have been grown on a high roughage diet – a 52 NEG ration. These bulls have the genetic power and breeding potential to fit any program, purebred or commercial.

We prioritize moderate, easy-keeping cows with quality udders and easy fleshing ability. The commercial heifers offered in this sale are part of our heifer buyback program – they come from our bull customers and are bred to the same bulls we use for our own replacement heifers. This is an excellent way to bring the best of our genetic offering to your program. For the past four years, we have been retaining all the females to come from our program to build our herd. We are excited to announce that this December, we will be holding our first female production sale.

If you have any issues with a bull purchase from J6, you don't have a problem, we do. We will fix it. Our customers are the absolute top priority at J6. We are always trying to be progressive in breeding modern, high quality genetics into our program and as we improve our herd through these genetics, we are able to offer you the opportunity to improve yours.

We are looking forward to seeing you at the Farm in Gibbon on March 3. If you're unable to attend, you can watch the sale and bid on CCI.Live. Feel free to stop by any time before the sale to evaluate the bulls and get to know our operation. As always, our team is available for answering any questions before and day of the sale to help you find the right fit for your program. Thank you for your interest in and support of our program.

David, Tish, and the whole team at J6 Farms.

The J6 Farms operation is deep rooted and here for the long haul and I am excited to be a part of it! I look forward to helping along the way with promotions and to get the word out on this exciting set of herd bull prospects and solid commercial bred heifers. David, Mark, and I work incredibly well together because we are all like-minded and want to bring the best we possibly can to offer to the public. With all the high input costs they have shifted their gears to punch as much efficiency and ease of fleshing into their seedstock as they can without sacrificing overall performance to mash the scales. The bulls this year represent the direction they are going towards. Bulls that are geared for profit and loaded with muscle, structural soundness, along with body mass and deep rib shape. That being said, I'll do my best to help you in any way possible on finding the right bull or kind of bull to fit your program. I am really excited about this journey with J6 Farms and if you have any questions about the bulls or commercial bred heifers don't hesitate to give myself or any of the sale staff a call.

Mike Marlow

I call this stud a ground pounder, when you see him, you will know why! Dominating the Red Angus breed carrying a top 4% for weaning weight and top 3% for yearling weight. 191J is as wide bodied and huge middled as they come, in an extra attractive eye appealing package. Adding more red meat and muscle is a trait we are striving for. At the end of the day pounds on the ground pay dividends for our customers that sell their calves by the pound. **Full brother** sells as lot 8. **Selling full possession and 1/2 semen interest.**

WEBER MAXED OUT 627 - PATERNAL GRANDSIRE OF LOTS 2-13 AND SIRE OF LOTS 14-25

Maxed Out is a changer in one generation, tried and true as they come. 627' has made important improvements like added efficiency which is lower input offspring.

Produces the ultimate maternal female that excels on forage along with total overall design. Perfect udder quality and attachment, with long level hips, with a quality solid foot. His sons excel for performance and added muscle, with a load of volume and rib shape to keep their condition while breeding cows, with excellent scrotal circumference.
