THE LEGACY

COLLECTION II

11.05.2016

5960 Maple Road, Gibbon, NE

J6 Farms is a family ran operation that is led by faith,
backed with integrity and committed to service.

On behalf of J6 Farms and our entire crew we would like to welcome everyone to attend our Legacy Collection II Sale. We will be hosting the sale this year at our farm near Gibbon, NE. My wife Tish and I and our children are more than excited to showcase our sale offering on November 5th. We have a strong line-up of our finest in Red Angus, Simmental, SimAngus, Angus and Maintainer cattle that you will find highlighted here in this sale catalog. Tish and I would like to extend a warm welcome to all of you to come to J6 Farms and enjoy our hospitality where we can create new friendships and cherish our old friends as well.

In this sale you will see the progress we have made at J6 Farms since our inception and are in hopes you will appreciate them as much as we do. We take pride in our daily lives and realize it is a gift that has been given to us and we want to make it the very best that we can each and every day. We love the agricultural and beef cattle industry and the quality of people that are in. If we can be of any assistant with your travels to the sale or if you have any concerns regarding the sale cattle than please don't hesitate to call any of us.

Best regards,
David Spencer
J6 Farms

The 2014 and 2016, two-time Denver National Western Stock Show Grand Champion Red Angus Bull

Six Mile Taurus has been said by many noted cattlemen around the country that he is one of the finest purebred Red Angus bulls in the breed. It does help that he won the Denver show as a calf in year 2014 and then again in year 2016 but simply said he is flat amazing! Sound and big footed, full of middle with a ton of rib, eye appealing from every angle and so cool in his presence. This bull has it all and to top it all of his first calves are making many stand up and pay attention. Highlighted and featured in this sale are four of his finest daughters that will sell in the Legacy Collection II Sale. We will let his progeny speak volumes on what kind of breeding bull he is and hope you can come take a look at them for yourselves on sale day.

J6 Ms. Dolly D600 is without a doubt one of the features of the Legacy Collection II sale. This Six Mile Taurus daughter is a representative of the great results that J6 Farms is experiencing with their premier Red Angus genetics. Her sire of course is one of the all time great bulls that the breed has ever seen. This heifer and three other paternal siblings will showcase this 2nd annual production sale and bring more attention to the kind of job that Six Mile Taurus 519A is doing for J6 and the select few others that have invested in his semen. This young heifer is from WCR Miss Dolly WI 143Z, a daughter of Red Wilbar Reload 322X from a daughter of SAV Pioneer. J6 Ms. Dolly D600 is so perfect from the ground up in her foot size and her fluidity in movement. We so appreciate her foot size, softness in her pasterns and her calm disposition. She is very maternal up through her head and neck and strong down her top line and very square and level out from her hooks to her pens.

If you are in need of a show heifer than we urge you to take a close look here at J6 Ms. Lightning D322. She is so long and extended up through her head and neck and it blends very smoothly into her shoulder. Those that have already seen her love and appreciate her length of side, level hip and excellent structural correctness. She is nearly perfect in any way that you might take a look at her. Her sire Six Mile Taurus 519A not only dominated the Denver National Western Red Angus show twice but just as importantly has proven with this young heifer that he is a sire of excellence. Her dam is a daughter of the triple crown winning sire Majestic Lightning 717.

Here is a paternal sister in blood to Lot 5. J6 Ms. Flo Marie D601 is one of the very well made and exciting show heifer prospects from the heart of the J6 Farms embryo transplant heifer calves. She is a daughter of Six Mile Taurus 519A, the two time Denver National Western Red Angus Champion bull and now leading sire of excellence. This young heifer is rock solid from all angles and has the structural correctness just like her sire. She is extreme in her foot size and very well traveled. We appreciate her from the side profile and very much appreciate her down the top and out of her hip.

There are so many things that are so "right" when you see this young heifer in person. She stands very upright, proud and seems to always have everyone's attention. From the ground up she nearly perfect in her structural soundness and has the length of body and squareness out of her hip that any quality driven breeder would appreciate. This young Six Mile Taurus 519A daughter is from a Majestic Lightning daughter from the Whitestone Serabelle W1118 donor. She is now headlining the J6 Farms extensive embryo transplant program. She came to J6 Farms in the complete herd buyout from Majestic Meadows. She was a pick of the heifer calves at Whitestone Farms in Virginia. Her daughters are in full on production for our fellow Red Angus breeders at Chain Ranches in Oklahoma and the Bloome Family in Iowa.

Buyer supplies the semen and J6 Farms will provide the embryo flush where they guarantee a minimum of at least six embryos and up to 10. Any embryos over 10 will be split between J6 Farms and the buyer.

TC Ellie 32Z highlighted the '15 Legacy Collection sale for J6 Farms where half interest sold to Six Mile for \$30,000. She made her presence be known in the 2012 when she was shown beside her dam to dominate and win the competitive NAILE Red Angus show. This daughter of Three Aces Sideways has always commanded lots of attention no matter what show and no matter what pasture she stands in. It is females of her caliber that continue produce excellence at J6 Farms. This is a unique opportunity that J6 Farms is offering where they will share the genetic influence of this premier donor with the breed.

Buyer supplies the semen and J6 Farms will provide the embryo flush where they guarantee a minimum of at least six embryos and up to 10. Any embryos over 10 will be split between J6 Farms and the buyer.

WR Porche 0030 is one of the premier purebred Red Angus females that proudly represents the J6 Farms extensive embryo transplant program. She is a direct daughter of GT Cita 4060 that has been the cornerstone Red Angus females of the entire breed. Several of her progeny were highlights in the '15 Legacy Collection Sale. She was responsible for producing and raising more dollars worth of cattle that sale then any other female. Her Six Mile Taurus daughter sold for \$15,000 to Blairs Ag and another daughter sold for \$8000 to Rust Mountain. She has proven herself time and time again as being the donor that works and works very well no matter what she has been mated to.

Buyer supplies the semen and J6 Farms will provide the embryo flush where they guarantee a minimum of at least six embryos and up to 10. Any embryos over 10 will be split between J6 Farms and the buyer.

The premier purebred Angus female that resides at J6 Farms is Gambles Lady 4079. She is a daughter of BC Marathon from the famed Gambles female, Gambles Lady 958. As you can see here in the picture and you will see on sale day she is one amazing purebred Angus Female. She is massive in her foot size, soft in her pasterns and very fluid in her movement. The amount of rib shape and capacity that this female has is unreal. She is being made available to flush to the bull of the buyer's choice and what an opportunity this is and will be for the buyer.

Here is an elite show heifer and one that we can't wait to see what the future holds for her in the show ring. She is so pretty, cute and very appealing at the profile. She is a daughter of the breed popular PZC TMAS Firestorm 1800. Firestorm is one of the most exciting Red Angus bulls to come along in sometime. He was the high selling Red Angus bull in the 2012 Thomas Ranch Sale. He is rugged in his design, with a big, square hip and massive top. His combination of power, soundness, and phenotypic design make him a great choice for a wide variety of females and he has certainly done well when bred to J6RA Ms Indeed 461, a daughter of Red Towaw Indeed 104H.

J6 Blockanna D100 is a product of the blending of some of the premier Red Angus genetics that J6 Farms has in this arsenal. This young heifer is sired by the extremely thick made and heavy muscled Red Angus sire 4L Visionary 100. He is a paternal sibling to Six Mile & Co Jagger 780A, the leading J6 Farms herd sire. Her dam is one of the predictable J6 Farms donors, Whitestone Blockanna X234. X234 was a many times champion and many times top show contender in national competition throughout her show career. She is now leaving a legacy with her progeny and this young heifer is one of the many reasons she will always have a secure place in the donor pen at J6 Farms.

This young February open replacement female is sired by A-1 Lazy MC Century 5322, a proven son of Red Lazy MC Lookout 153X. She is moderate in her frame score and has plenty of bone and foot size needed to capture anyone quality conscious breeders attention. This young female has the calm disposition, fleshing ability and depth and spring of rib shape to work in production

We love this young show heifer from the ground up. She is so soft in her pasterns and sits down on a big foot. We admire her fluid movement and calm disposition. This young show female is very feminine and yet so maternal in her appearance. She has plenty of fore rib and overall capacity to stay very efficient and maintain her fleshing ability. This is exactly the type of female that has taken the Red Angus females to the highest esteem amongst the finest cattleman in the country. She is a daughter of U2 Reckoning 149A, the \$49,000 half interest valued bull from U2 Ranch to Six Mile Ranch. He is a son of Red U2 Recon 192Y son and is siring calves of excellence that are very much in demand.

J6 Ramayah D606 is our lead-Off VCL Olympian open heifer for obvious reasons, she is particularly long spined, has amazing extension through her front one third and ties all her pieces together in a high quality, balanced package. Her stunning profile is further complimented by her phenotypic driven pedigree, both her sire VCL Olympian and her maternal grandsire R&R Chamberlin are exceptional in their design. This one certainly needs to end up in a good home, where she will have an opportunity to not only be a memorable donor cow, but she can make a few trips to town and grace the tan bark and be paraded by one of our outstanding Simmental youth.

Who doesn't love a little chrome on a Broker granddaughter? This particularly long fronted and smooth shoulders descendent of the Sparkle cow family has been one of our favorites in the replacement pen since day 1. Her strength of lines and overall balance sort her into a league of her own. VCL Olympian was bred in the Vogler Cattle Co. program and promoted through the Hartman program, where he was one the sale elites in 2015.

Bred for eye appeal, this female does just that! This extremely feminine female is so refined about her head and neck, you can come back on her with PB Simmental and really have something special! Sired by VLC Olympian, who's dam is a sister to Re-Hab and Encino Man. We especially like this female when you put her in motion, she offers a ton of reach and flexibility off of both ends of her skeleton.

There is a reason that the 50% Sim-Angus cattle are taking the beef industry by storm. For years, the producers of these genetics have realized their potential, and now their popularity has grown extensively. We feel that growth is due to cattle like this particular one. The Blackbird cow family has always thrived in our environment and they mate up superbly with our HOC Broker son, VCL Olympian.

Relationships & transparency
have always been of the
utmost importance
in our business.

When MR TR Hammer 308A ET exited the sale ring after yielding \$200,000 (for 1/3 interest) in the 2013 Hartman sale, his impact began to be felt throughout the Simmental population. He is rare combination of data, phenotype and pedigree was the sought after solution for many producers. Here at J6, his daughters and sons alike will always be some of our all-time favorites. Katie is exceptional topped, functional in her framework and gives you a great look for a replacement. She ranks in the top 20% for weaning weight and top 25% for yearling EPD.

This February Maintainer has the potential to absolutely tear up the tan bark and find her way to the backdrop for her new owners. She certainly is one that it has been a struggle to keep Mark from snatching off to the showbarn. She may not have the sudden wow factor at first glance, but study the pieces. She is as complete as they come; exceptionally balanced, great skeletal angles, adequate middle and sound structured.

This black and polled 50% SimAngus female combines the fame of Gambles Hot Rod from the Angus population and GKS Re-Hab from the Simmental gene pool, both bulls inject a tremendous amount of phenotypic quality and eye appeal. This direct son of DJAS Shockwave, the 2011 NWSS Champion Angus Bull is particularly functional in her design and offers a tremendous amount of breeding flexibility due to her added dimension.

A.I. 4.23.16 to Six Mile & Co Jagger 780A

This is truly one of the highlight Red Angus bred heifers of the offering. She is result of the blending of the genetics of two lineages that seem to work extremely well together. She is a daughter of the Triple Crown winning bull Majestic Lightning. He is the prominent son of Whitestone Cayenne 423R from the elite Whitestone Blockanna R227. The dam of this female is LSF Rebella R5008 U824. She was bred in the Ludvigson Stock Farms and her influence helped to propel the Majestic Meadows breeding program to the highest level before the entire herd was acquired by J6 Farms. Majestic Rebella C111 is a young first calf heifer that will make you appreciate all the great things about the Red Angus breed. She is very clean and extended up through her front end. She is very long and level down her top and very powerful out of her hooks to her pens. She has great sweep to her rib and the overall capacity needed to raise her calves efficiently and still maintain her condition.

Due 2.01.17 to Six Mile & Co. Jagger 780A

Some of the top females starting in production are daughters of J6RA BKE Indeed. He is one of the leading sires bred in the J6 Farms program and has gained national recognition for the quality of his calves across the country. This beef bull from the ground up has really made a difference at J6 Farms where structure is one of the most important traits. This first calf heifer is from a daughter of NBAR Hamley S913. Her future calf sired by Six Mile & Co Jagger 780A will be a very nice bonus to offset the investment in J6 Topper C150.

Due 2.01.17 to Six Mile & Co. Jagger 780A

This young females stems from a cow family that is something special at J6 Farms, WCAT Lassie 099Z. She is daughter of Red Cockburn Ribeye 308U and from Red Soo Line Lassie 6338. J6 Lassie C099 is sired by the stout made and rugged J6 Farms sire J6 RA BKE Indeed. The blending of these two popular lines of cattle seems to have worked out quite well with the creation of C099. Her future calf sired by Six Mile & Co Jagger 780A will be something to look forward to.

J6RA BKE
Indeed,
sire of Lots
33 & 34.

J6 Polly C151 is a daughter of the Canadian Red Angus sire Red Northline Fat Tony 605U. His daughters in production are working in some of the breed's finest programs. Her dam is the elite Red Angus donor for J6 Farms, WR Ms Porche 0030. Her influence was a big part of the first ever Legacy Collection Sale last year where a maternal sister sold for \$15,000 to Blairs Ag and one for \$8,000 to Rust Mountain. This female is sired by the breed popular sire Red Northline Fat Tony 605U, a sire where his influence has been felt all through the U.S. and Canada.

P.E. 5.01.16 to 9.01.16 to J6 Mr 9 Mill C550

Rugged and ranch ready describes this power female to a "T." Incredible amount of mass and substance in this one, she is type of power cow that you can mate in so many different directions! You can see that she is going to make a brood cow from the first time you lay eyes on her. Analyze this one from the ground up and she is substantial from any angle. It is SimAngus females of this caliber that continue to amaze us and keep us focused on wanting to raise the right kind. She is definitely one that is hard to part with as we can see her in embryo transplant after her first calf.

It's not everyday that you get to buy a granddaughter of the great Gambles Lady 958 donor! She was a past NJAS Division Champion and went on to produce the Reserve Grand B&O female at the 2009 NJAS. Her impact is felt throughout the Angus breed and other hybrids to this day. C704 ranks in the top 20% percentile for WW epd and top 25% for YW epd. There is no doubt in our mind, that this special female can easily find her way to the donor pen.

This WS Pilgrim X Porche mating has proven itself time and time again in our SimAngus program, the cattle are so very complete and elite. Here is one female who just keeps getting better and better with age and is sure to fall in her mother's tracks and be a great one. C123 is a paternal sister to both the 2014 Reserve Champion Female at the National Junior Show and the 2016 NWSS Champion Pen of 3 bulls. His ability to produce great sons AND daughters, is a tremendous asset in our breed.

We chose to utilize several Conley bred cattle in our SimAngus program, due to their historic emphasis on breeding great cow families with particular emphasis on function and eye appeal. We appreciate their maternal ability and longevity. Evergreen 012 is the dam of Lot 51 female in last year's sale, who was so much appreciated for her completeness and overall quality. This female has already proven herself in both purebred and hybrid scenarios and we confidently recommend her as a breeding piece in either.
